·Detachable Container House

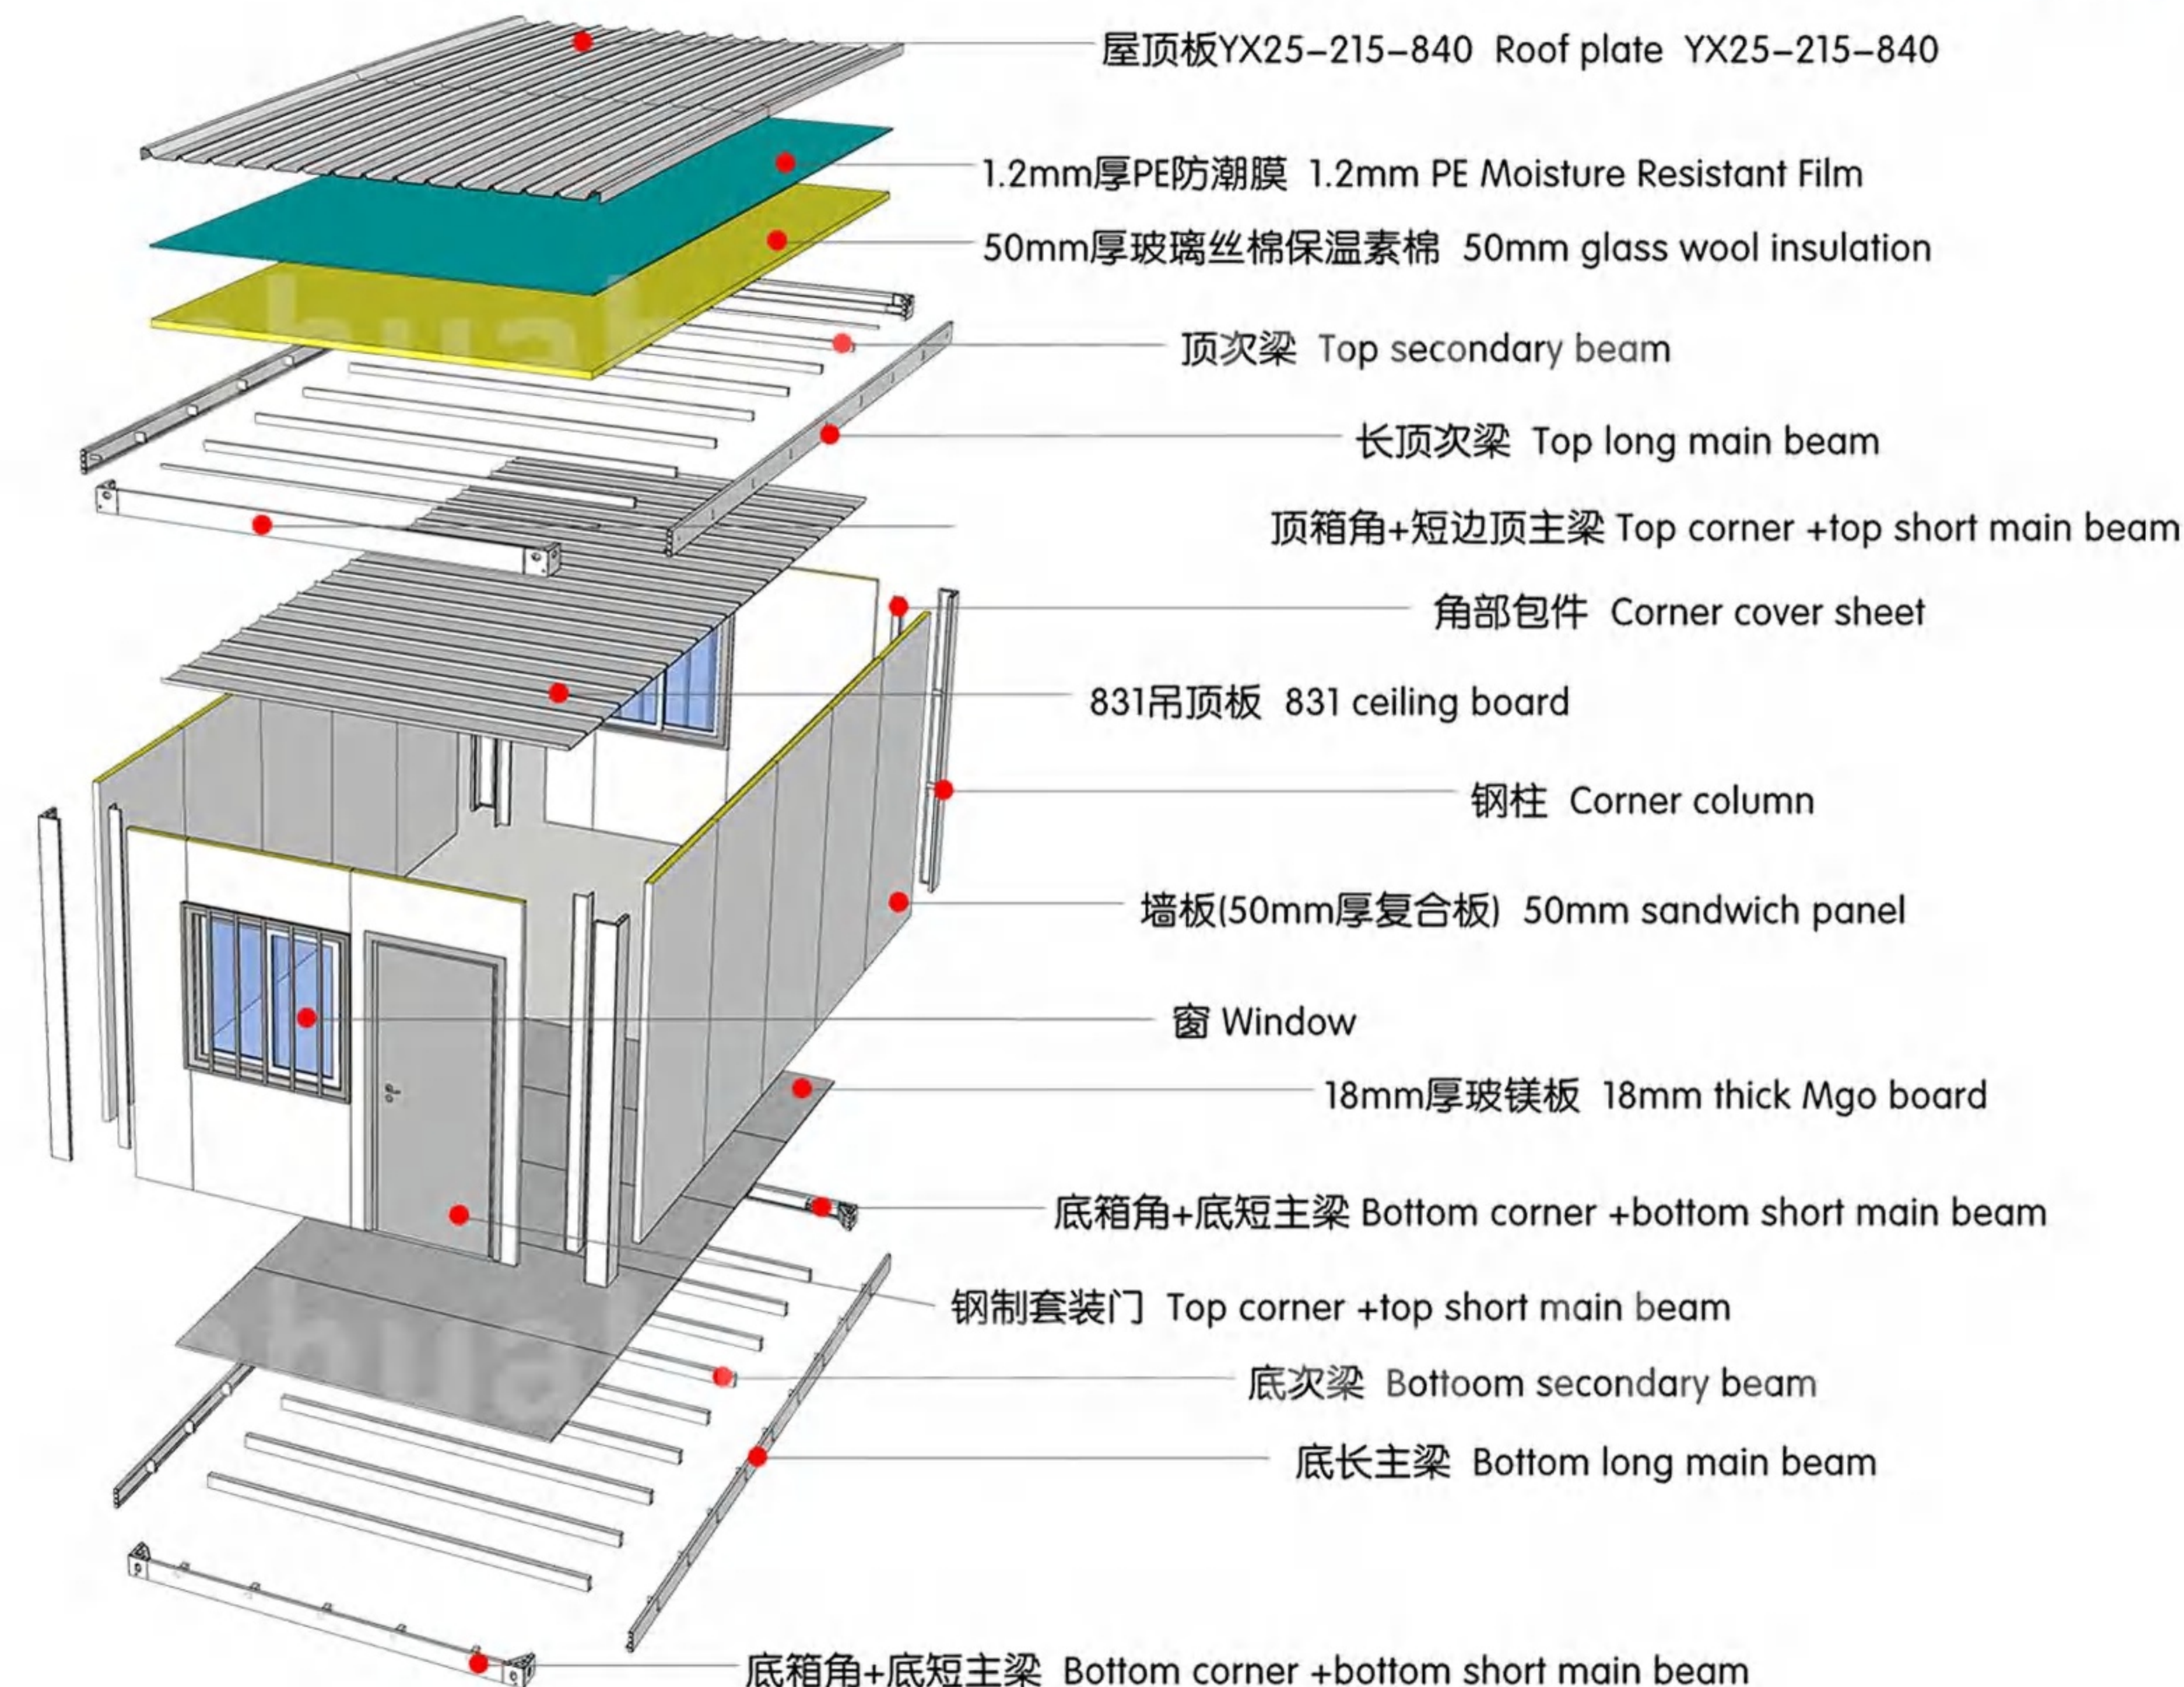

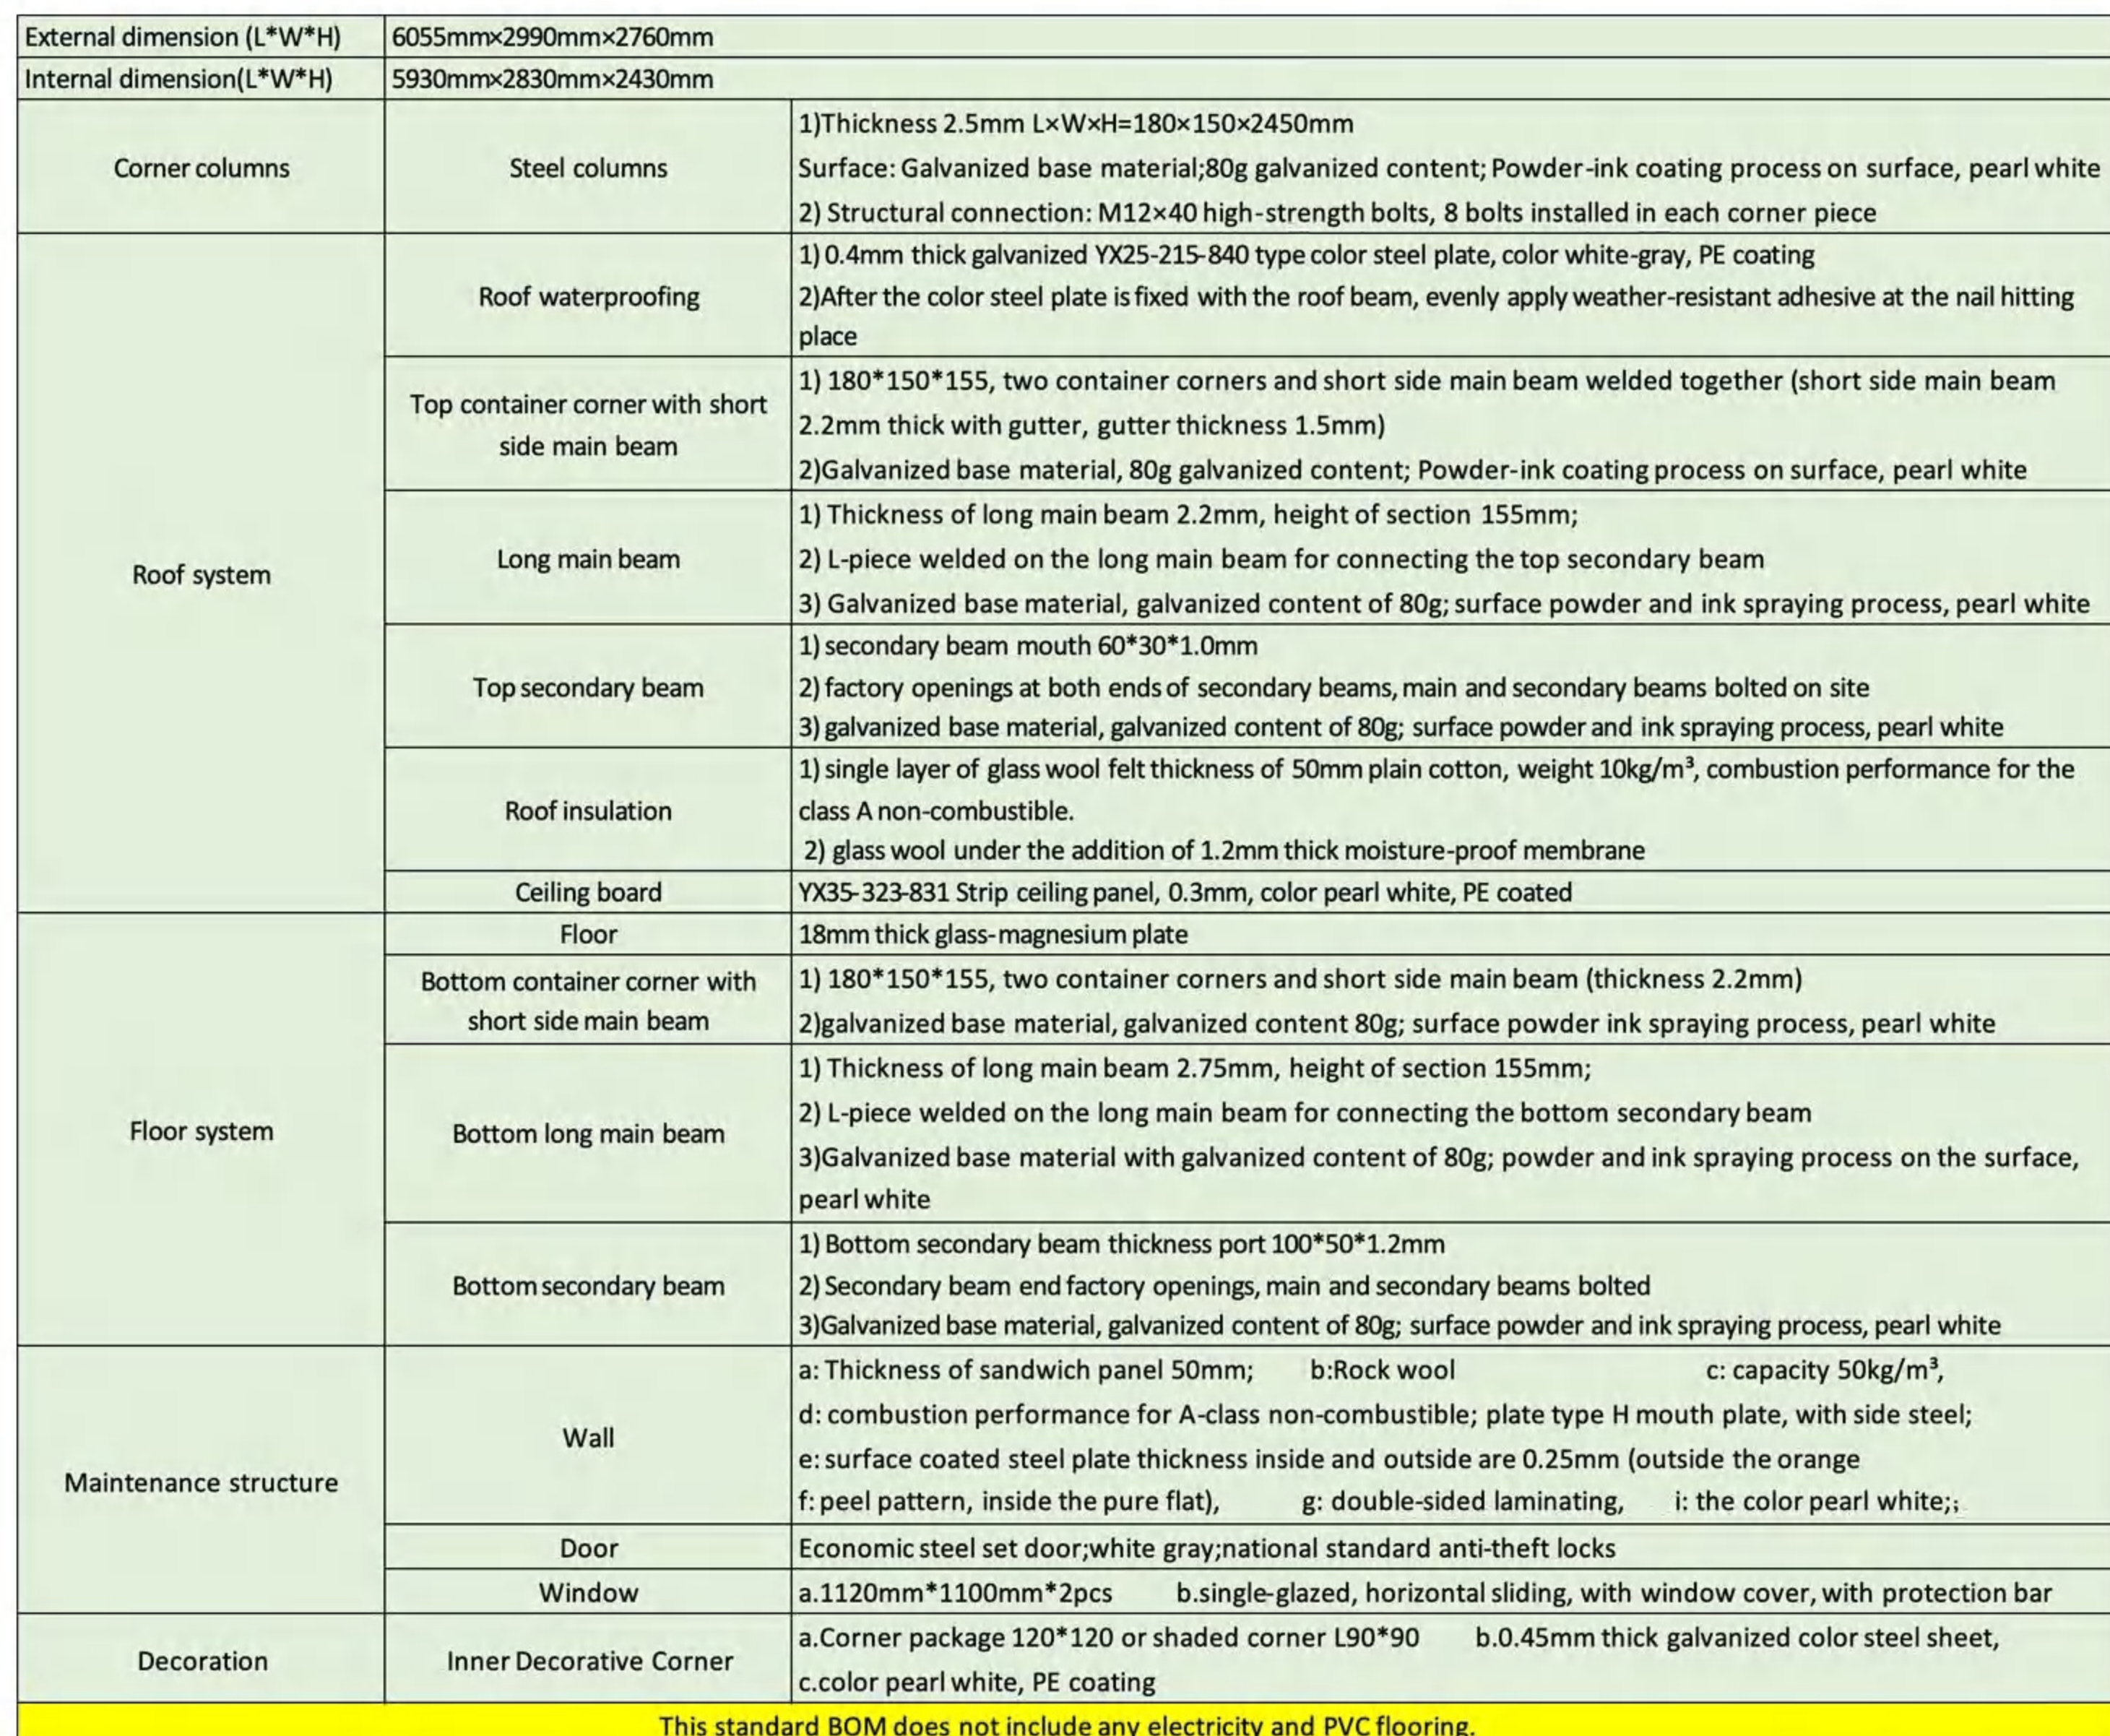

Product Advantages

**Standard Size: 6055mm×2990mm×2760mm(External dimension)
5930mm×2830mm×2430mm(Internal dimension)**

1. Each part is produced by the assembly line, and the production efficiency is high.
2. Low transportation costs.
3. The components are small and can be installed manually with little mechanical expense.
4. Hidden box corner joints to increase the aesthetics of the container house.

-Detachable Container House

Transportation advantages:

01

Taking overseas transportation of 40-foot high cabinets as an example, flat pack container houses can be loaded with about 6 sets, folding container houses can be loaded with about 10 sets, and detachable container houses can be loaded with 16-18 sets, the volume of transportation increases and the cost of transportation decreases.
